To-morrow morning and avoid the afternoon rush. Santa Claus could not possibly forget any child this season with the large assortment and most astonishingly low prices in toys that we have this year. Make the children happy; we will help you do it. See what you can get for them at only 10 cents.

10c BARGAINS 10c

10c Buys a large box of building blocks.
10c Buys a set of Britannia dishes.
10c Buys a large pretty top.
10c Buys an iron bank with key.
10c Buys a choice of six different kinds of games.
10c Buys a puzzle box: this is a Chinese puzzle and is very good.
10c Buys a tin cart with horse.
10c Buys a splendid leather whip with plush handle; this is worth 25c.
10c Buys a brass sword with scabbard.
10c Buys a wood gun that will shoot a stick 25 feet.

We want every one to see what splendid toys we have for the children for 25c.

25c Buys a nickle shot gun for the boys; these guns at whole sale are worth 35c: we will sell them at only 25c.
25c For a tin cart with a horse and driver.
25c Buys a boys drum, make very durable, and would be cheap at 35c.
25c Buys one of the finest toys in the city. It is a crying baby head, set as a target, which, when hit by a rubber ball that accompanies it, the toy will jump out of its position and in its place a laughing baby head appears. This wonderful toy we will sell during the sale at 25c.
25c Buys the famous toy Chinese bell on wheels.
25c When have you ever heard of this before? A large box of ten-pins, nicely painted, for 25c.
25c Buys a box of handsome made A. B. C. blocks, worth 40c if they are worth one cent.
25c Buys a toy piano. You have never heard of this toy less than 65c; we will sell them at 25c during the sale.
25c Buys a large tool chest with all the tools necessary for a boy to work with.

IT WAS HIS LAST TRIP

ENGINEER THOMAS KILLED IN A WRECK LAST EVENING.

The St. Paul & Duluth Northbound Limited Express is Hurled Down a Thirty Foot Embankment at Pickering and one Valuable Life is Taken While Many are Bruised More or Less Seriously—Miraculous Escape of the Passengers.

Between the hours of 6 and 7 p. m. yesterday a rumor reached Duluth that the St. Paul & Duluth limited express train had been wrecked near Mahtowa. Wildfire could scarcely travel faster than did this dread report, nor could its extent become more magnified by exaggeration. At 7:30 the most ravenous sensation lover could have been gratified at almost any street corner. First poor Bill Thomas was the only one who had lost his life, but according to many gossips, within a short time the number of dead had increased to no less than ten. Disregarding all rumors an HERALD reporter posted himself at the general office of the railroad company on Lake avenue and heard the wires tell the true story of the accident which is substantially as follows:

At precisely 6 o'clock the limited train in charge of Conductor Johnnie McManus thundered past the little station of Pickering, some fifty miles south of Duluth. The train was traveling at its usual rate of speed, about thirty miles per hour. The rear coach had barely cleared the platform of the Pickering station when a

PECULIAR CRASHING SOUND

was heard, and the next rational moment of the narrator was when lying in a heap of confused human beings and car furnishings at the bottom of what seemed a very deep ravine. The train had bounded into a misplaced switch, and the engine, combine baggage and smoking car, and the first or St. Paul coach had tumbled down a thirty foot embankment. It was fully ten minutes before anybody realized just what had happened. Completely upset in mind and body, each passenger was afraid to move, and each thought his fellow must be killed. All seemed reassured at about the same moment, and extricated themselves as best they could from their uncomfortable positions, and the bond of human sympathy taking possession of all, each began to look to the welfare of his neighbor. Groans from the direction of the engine sounded above everything else, and Conductor McManus and others making their way thither stood in the face of death.

"BILL" THOMAS WAS DYING.

The oldest and one of the most faithful employees of the road lay pinioned to the ground with an eccentric penetrating his abdomen. "Lift me up, I feel like fainting," feebly uttered the suffering man, and he never spoke again. Fireman Lynch was being taken care of a short distance behind where the engine went down the embankment, he having jumped from the cab. An examination showed his hip to be crushed and his sufferings also indicated internal injuries. Fortunately Dr. Ingraham, of Chicago, was aboard the train en route to Duluth to see his son Charles, the ball player, who lies at St. Luke's hospital very ill with erysipelas. Dr. Ingraham was slightly bruised but set about with a will to relieve the sufferings of others. Bandages were secured by emptying some flour sacks at a camp near by and the wounds of all which were but slight, were all soon dressed and the sufferers rendered easy. The list of the wounded is as follows:

H. V. Goetchies, seriously injured in back and side, Titusville, Pa.

G. M. Kerr, Titusville, Pa., hurt in back chest and limbs.

R. A. Gray, Duluth not seriously hurt.

Mike Lynch, fireman, St Paul left femur fractured.

Gust A. Lundberg, Duluth, side bruised and injured internally.

A. G. Cattell, New York city, nose broken and injured chest inside.

G. W Penney, brakeman, bruised knee and ankel.

F. C. Bliss, St. Paul, not seriously hurt.

The other passengers aboard were: Mrs. Jas. A. Boggs, Duluth, Geo. Hall, J. W. Bye, M. B. Peterson, J. W. DeForest; R. Duncan, of Stillwater; P. Philmar, of Appleton; Leroy Fish, of Cloquet; Thomas Kelley, of Winnipeg; C. K. Northrop, of Chicago and T. B. Hoover, of Duluth.

A majority of the passengers were in the rear or Minneapolis coach, most of them having been driven from the St. Paul car by the disgusting actions of a lewd woman, who was under the influence of liquor. This deplorable circumstance proved a blessing in disguise, as the Minneapolis car was the only one which kept the track.

There is great sorrow both in railroad and business circles at the untimely end of Engineer Thomas. He was known to everybody and everybody liked him. A distressing circumstance in connection with his death was that this was to have been his last trip, he having accumulated a handsome competency and having tendered his resignation a day or two ago. The unfortunate man leaves a wife and adopted daughter in St. Paul to which city the remains were taken last night. The dangerously idiotic man who left the switch open is much in demand nothing having been seen of him since the wreck. The fact that Paymaster Coleman was aboard the train with $2,500 in his possession has given color to a rumor that the switchman's object was robbery, which is too absurd to be entertained for a moment as no one could have known anything about the money or even the paymasters presence on the train.

A relief train supplied with Duluth physicians left this city at 8 o'clock and returned at 11:30, bringing the injured and the more fortunate passengers to their destination, with the exception of Fireman Lynch, who was taken to his home in St. Paul. The passengers' accounts of the affair all tally with the above.

"CLING TO YOUR SEATS,"

was the expression of conductor McManus the instant he felt the smoking car of which he was an occupant, leaving the rails. This remarkable presence of mind doubtless prevented more serious injury to the passengers in that car, if not death. Major T. B. Hoover, of Duluth, is one of them and he is lavish in his praise of the coolness and excellent management of Mr. McManus.

Mrs. James Boggs, of this city, had barely left the St. Paul car and become comfortably seated in the rear coach when the accident occurred. Hers was indeed a narrow escape for which the lady's many friends are truly thankful. Although quite serious enough there is much to be thankful for in this occurrence and that several more deaths are not recorded is nothing short of a miracle.

COMMENDATORY TESTIMONIAL.

A meeting of most of the male passengers was held at the St. Louis this afternoon and the following resolution passed:

DULUTH, Dec. 20, 1887.

We the undersigned passengers on the ill-fated train that was telescoped into Pickering cut last evening, forty miles south of this city and on the St. Paul & Duluth railroad take this opportunity to testify to the heroism, self-denial and uniform kindness of Conductor McManus to each and every passenger whether hurt or not. We cheerfully recommend him to the traveling public, to the railroad officials and others with whom he may now or at any time in the future become associated as a safe and efficient conductor.

COUNTY ROADS.

THE COUNTY COMMISSIONERS ANXIOUS TO IMPROVE ROADS.

An act of the state legislation was passed last winter allowing St. Louis county to vote on an issue of road bonds to the amount of $150,000, which were to be issued during several years, $4,000 of them the first year. This act was not signed by governor in time to allow a vote of the people of the county last season and the commissioners are anxious to have the matter brought up and voted on in the near future. They are of the opinion that were the $40,000 allowed for the first year expended there would be no future use of expense on county roads for several years, and this amount of money would give all the roads asked for by farmers and the northern part of the county.

During the past few years the commissioners have built roads under an entirely different system from that previously employed, and the money invested has gone much further than before. The south in the country are not yet opened up sufficiently for settlement, and immense tracts of valuable farming lands, which would soon be taken up and improved, lie idle, untilled and waste. The voting of this $150,000 in roads would add ten times that amount in a surprisingly few years to the actual taxable value of the county and would result in hundreds of fine farms, supporting a thrifty intelligent and valuable population. Duluth itself needs hardly anything more than the opening up of this back country by good roads, and it is to be hoped that the matter of these bonds will be pushed and that they will be voted without unnecessary delay.

THE ST. PAUL WAY

OF SWELLING TOTALS—A PACE THAT REMINDS ONE OF THE CIRCULATION LIAR.

The attention of the writer was called a day or two ago, to the peculiar methods of increasing the daily total of real estate transfers in the saintly city. The "unpublished transfer" fake has previously been mentioned but this new scheme leads it in beauty of design and vigor of execution. On the day in question the total of transfers as given in the Pioneer Press and Globe was $98,625, a very fair amount. Of this total $20,550 was taken up by "7 unpublished" and the actual total of transfers on the twenty-one others printed footed up, according to the arithmetic taught in Duluth schools, to $59,285, leaving less than $39,000 for the total of actual transfers. But when the sum reached the line marked total it suddenly swelled to $98,925. It was no typographical mistake, either, for the same total appeared below in the summary of the week. It is possible that one of the circulation liars of our local morning publication got in his work on those figures.

An Excellent Show.

The Duluth theatre was well filled last evening when the curtain arose on a very handsomely set first part and with Billy Jackson and Gus Pixley on the ends. Burt Stanley also appeared and good music and funny sayings kept the audience in a good humor for one of the best olios ever seen at the house. Miss May Johnson, an old time favorite, reappeared after an absence of a year and she has lost none of her fascinating ways. Miss Johnson is a vocalist of more than ordinary merit and met with a rousing reception. LaPetite Ostley, an exceptionally clever little Miss, and Jerome, one of the best contortionists in the country, together with other good people made up a splendid bill which will be repeated every night during the week.

PLATT WALKER IS LEFT.

There is no Show for the Minneapolis Man to Secure the Coveted Appointment.

WASHINGTON, Dec. 20—[Special]—Col. Platt Walker, of Minneapolis, is a candidate for a position in the house under the door keeper. He has absolutely no show for an appointment. Congressman Rice has done all that man can do for a friend and constituent. Doorkeeper Hurtt says that he is willing to give Col. Walker the position if the Minnesota Democratic congressman will unite in recommending him, but Mr. Rice has been unsuccessful in securing the co-operation of the other gentleman and hence Col. Walker is not likely to be appointed.

FROM ST. CLOUD.

The Tribune Office Closed by the Sheriff—To Locate Sawmills.

ST. CLOUD, Dec. 20—[Special]—Marshal Campbell today closed the St. Cloud Tribune office pursuant to an order of the circuit court.

News is received that diphtheria is raging so vigorously at Clearwater that the village has been quarantined by the state board of health and all business is suspended.

The chamber of commerce this morning appointed a committee to confer with Michigan lumbermen as to the locating of sawmills here and to explain the many advantages offered by the city.

THE SALVATION ARMY.

Meetings of the Cranks at Faribault so Much Disturbed that Protection is Sought From the Governor.

FARIBAULT, Dec. 20.—[Special.]—The services at the salvation army here have been disturbed so much of late that Major Fishblatt telegraphed Gov. McGill asking for protection. The governor replied: "It is the duty of the police officers and sheriff to preserve order and your application for assistance must be made to them. When ever advised by the sheriff that he needs help I will promptly furnish it."

A. R. MCGILL.

Several arrests will probably be made.

RAILROAD RUMPUS.

Sub-Contractors Refuse to Allow the D. S. S. & A. Company to Lay Tracks.

ISHPEMING, Mich., Dec. 20.—The sub-contractors on the Summit division of the Duluth South Shore & Atlantic railway near Dogwood, refused to allow the railroad company to lay rails over the graded track. The sheriff of Marquette county and a strong posse went to the scene of the rumpus about noon, and a special car containing officials of the road left Marquette shortly after. The telegraphic communication is of the most meager kind, but at last accounts bloodshed and rioting were expected.

The Petroleum Producers.

TITUSVILLE, Pa., Dec. 20.—There is no longer any doubt that the shut down movement of the petroleum producers is a ready and will continue to be a success as contemplated, namely, for one year, which began on November 1st. Several wealthy producers have at last succumbed to the pressure and agreed to join. The professional drillers have nearly all been induced to join and agreed not to do any drilling whatever, and are to be paid for remaining idle, out of funds provided by the producers association.

FOREIGN WAR CLOUD.

PECULIAR ORIGIN OF THE THREATENED TROUBLE.

A Direct Sequence of an Amicable Interview Between the Czar and Emperor William—The Publication of the Benedetti Treaty Re-called—How the Princess Alice Figured in the Affair and was Never Forgived for her Apparent Collusion with the Enemy.

LONDON, Dec. 20.—The war scare which has so suddenly loomed up into such ominous portent is said political circles here to-day to have been the direct sequence of the amicable interview between the Czar and the Emperor William. The Czar in his conversation with the Emperor, it is reported, offered to send to the German court certain documents proving Bismarck's duplicity. Bismarck retorted that the documents referred to by the Czar were impudent forgeries. This singular and startling incident recalls the publication of the Benedetti treaty in the Times, the copy of which it was subsequently discovered was sent by a special courier by Count Bismarck to the Princess Alice, who translated it for publication in the "Thunderer." The unhappy princess was never forgiven for this apparent collusion with the enemies of France, although no doubt is entertained that her husband Prince Louis of Hesse-Darmstadt was the party chosen by the German chancellor to secure the publication of this document in the English press for the purpose of alienating the sympathies of the people from their firm ally, the Third Napoleon, who risked the fortunes of finance and his empire by joining with England in the Crimean war. The Czar pretends to be satisfied with the explanations which Bismarck has vouchsafed, but his ministers are not. Meanwhile the imminence of war appears to spread throughout Central Europe. The death of the Emperor of Germany or the Crown Prince or of Bismarck, it is believed here, would be immediately followed by the Russian occupation of Bulgaria.

FOX WANTS A FINISH.

The New York Sport Sends a Couple of Interesting Cablegrams.

NEW YORK, Dec. 20.—Richark K. Fox this morning sent the following message in regard to the Smith-Kilrain fight:

"To George W. Atkinson, referee, Kilrain-Smith fight:

Fight must be finished. If Smith refuses I shall claim the belt, the world's championship and the stakes for Kilrain.

And this cablegram was sent to his representative, Wm. E. Harding:

Draw won't do. Men must meet to finish. If Smith refuses shall claim belt, the world's championship and stakes for Kilrain. I am willing to back Jake against John L. Sullivan after this is settled for from $5,000 to $10,000 and the belt.

Springer Will Try to Kill Them.

WASHINGTON, Dec. 20—[Special.]—Delegate Gifford on the first bill day will present two bills, one for the admission as a state of North and one for the state of South Dakota. The bills call for the election of delegates in June and holding a constitution convention in September. They will go to the committee on territories, where Springer will try to kill them.

Expensive Surveying.

PIERRE, Dak., Dec. 20-[Special]—Years ago the Chicago & Northwestern railway made a survey from the mouth of the Bad River to Rapid City. The engineer in charge was Chas. Irish, now surveyor general of Idaho. He lost the profile of the work and all efforts to find it proved fruitless. The former survey cost $12,000. A resurvey has been entered upon under charge of Engineer Andrews.

Dan Dougherty Done For

LONDON, Dec. 20—Dan Dougherty, the American who shot and killed George M. Graham, another American recently, has been convicted of manslaughter and sentenced to penal servitude for life. The Judge in sentencing Doherty delared that the jury had taken a merciful view of the prisoner's crime.

Swineford Sued.

MARQUETTE, Mich., Dec. 20. [Special.] The case of the state of Michigan vs. Gov. Swineford, of Alaska, is now on trial. The state sued Swineford for an accounting of money used at the New Orleans exposition in 1885. The case is attracting widespread interest.

Opposing Lamar.

BOSTON, Dec. 20.—The Boston branch of the National league of colored men at a meeting held last evening adopted a resolution opposing the confirmation of Secretary Lamar as judge of the supreme court of the United states.

Governor Bodwell's Funeral.

AUGUSTA, Maine, Dec. 20.—Business was entirely suspended this morning, and the flags were all at half mast, and thousands of visitors are in town to attend the funeral of the late Governor Bodwell.

Y. M. C. A. Entertainment.

The regular meeting of the Y. M. C. A. will be held this evening and a very pleasant evening has been planned. There will be refreshments, music in which a male quartet will take principal parts, a social and a business meeting, at which a constitution will be adopted and officers for the ensuing year elected.

Daniel P. Kenna, a brother of Deputy Sheriff Kenna, is in Duluth on a short visit. He has just arrived from the Union Pacific railroad where he has been employed for seven years.

Chas. A. Golden, the barber, 356 Lake avenue, made a complaint against J. M. Murphy, his former employer. Mr. Murphy struck Golden with a board because he opened up business on Lake avenue. Mr. Golden wants to know if there is any law in Duluth to prohibit him from opening up business on Lake avenue. The warrant will be issued.

SUSPENSE PROLONGED.

Lamar's Case not to be Acted Upon Until After the Holidays.

WASHINGTON, Dec. 20. — [Special.] — Lamar's nomination will not be acted upon by the senate until after the holidays.

Late Sailing.

Capt. Wheeler, of the staunch tug Camp, is waiting an opportunity to start down the lake on his last trip of the season, and he expects to be absent a week or more. It is well for our out of town readers to notice that there is no impediment to lake navigation at the head of Lake Superior after the middle of December. Capt. Wheeler will go as far as Port Arthur, and expects to return with ten or fifteen tons of fish. It will be the fifty-fourth trip the Camp has made to the Canadian side this year.

THE CITY FATHERS.

BIDS FOR EFFICIENT STREET LIGHTING ARE PUT IN BY THE DULUTH ELECTRIC LIGHT AND POWER COMPANY—OTHER BUSINESS.

The regular weekly meeting of the council was held last night, all aldermen except Daugherty and Costello being present. Mayor Sutphin sent in a communication regarding the restriction of rights on the proposed boulevard to the Street Car company, and another regarding a sufficient provision of polling places at the coming city election.

Contracts were approved as follows: To Wolf & Co., for sewer in alley below Third street, $808; to same, for sewer in alley below Fourth street, $979; to same, sewer on Third street, $1,196; to M. H. Fitzpatrick, sewer on Second street, $1,420. A communication was received from the board of works, and referred, stating that the water company's reservoir on Twelfth avenue west was in a dangerous condition, and liable to break and flood that part of the town. McLennan & Hannah were granted extension of time on Lake avenue contract to July 1st, 1888. Licenses were granted to W. W. McMillan & Co. and Chas. Yager to connect with sewers.

A communication was read from the Duluth Electric Light & Power company, stating that the company, having lately largely increased its plant, was ready to light the city and offering to furnish arc lights of 2,000 candle power for sixty cents per night, or incandescent lights of twenty candle power for $20 per year, all to be all night and every night. Acts to be presented to congress regarding bridging the bay from Rice's to Minnesota Points, and also the canal were read. The first provides for a bridge with two draws, each of 200 feet span, and located at the channels near either end of the proposed bridge. The second provided for a draw of 150 feet span across the canal.

The ordinance prohibiting the use of salt on the streets and that granting certain rights in the streets of the city to the Natural Gas, Oil and Mineral company were both tabled. Petition of G. A. Kline for liquor license was referred and T. R. Shaw was given license for bowling alley. An ordinance granting privileges to the Zenith Electric company was referred. The judgment against the city in the case of Andrew Anderson was ordered paid. $3,800 was ordered paid Contractor Butchard on Twenty-fourth avenue west contract. Council adjourned.

THE CHAMBER OF COMMERCE.

THE RAINY LAKE & SOUTHWESTERN ROAD FORMS THE PRINCIPAL TOPIC OF DISCUSSION AT THE CHAMBER OF COMMERCE SESSION THIS MORNING.

At the meeting of the Chamber of Commerce held this morning a long and precise communication from the projectors of the Duluth, Rainy Lake & Southwestern road was read, in which they outlined their projects and prospects. The road will run from Duluth in a northwesterly direction striking the western extension of the iron belt and running through the pine forest of the upper St. Louis to the southern borders of Rainy Lake, where an immense body of almost untouched pine timber is located; thence westerly through the Red Lake reservation and into Dakota. The co-operation of Duluth and the chamber was asked inasmuch as it is memorialize congress to allow the road to build through the Bois Fortes reservation at Nett Lake, across unsurveyed lands and Red Lake unceded lands, and to bridge the Red river.

The following petition was adopted: "To the congress of the United States: There is now pending before your bodies a bill to grant the Duluth, Rainy Lake & Southwestern Railway company the right of way through the Bois Fortes reservation and the Red Lake and unceded Indian and unsurveyed lands of the United States in Northern Minnesota. In the opinion of your petitioners such a road as that contemplated by the D., R. L. & S. W. would be very advantageous and of great commercial utility, and would open for settlement and business enterprises a most desirable portion of the northern part of the State."

A committee of three, Messrs. Cash, Wadhams and Mitchell was appointed to draft articles of association for a cemetery association and to make arrangements in regard to a cemetery. Another committee, the secretary and Messrs. Wadhams and Mitchell was appointed to draft a memorial to congress in behalf of making Duluth a port of entry. A communication was received and filed from the committee of promotion of a World's exposition in 1892 the 400th anniversary of the discovery of America. The committee appointed to confer with railroad managers regarding rates between Duluth and Chicago, was requested to report at the next meeting. An amendment to the by-laws was given notice of, which will allow a permanent committee on transportation. The decision of Judge Sleeper was received and the secretary will correspond with the attorney in the case in regard to an appeal to the higher court. After some other business the directors rose.

Christmas Celebration.

The Duluth Concordia, the German singing society, will give a Christmas dance next Monday evening at Ingalls' hall. A special feature of the evening will be a Christmas tree, dedicated to and hung with presents for the children. The intermission will be made enjoyable by different songs by the full chorus of the Concordia society, under the direction Prof. Tonning. All are cordially invited.

PERSONAL MENTION.

A. L. Ordean went east this morning.

T. L. Blood, of St. Paul, is again in Duluth.

Dr. J. T. McGarvey and wife, of Cloquet, are at the St. Louis.

J. F. Patten and wife left today for Boston to spend the holidays.

J. M. Millar, of Grand Marias, is in the city on his way home.

Robert Mangler went to N. P. Junction this morning on a business trip.

Leroy Fish, of the Cloquet Lumber company, is in the city, and is registered at the St. Louis.

Landlord Jas. Butchart, of the Merchants' hotel, left Duluth Sunday in response to a telegram announcing that his younger brother was dying at Rimoski, P. Q. A telegram was received this morning stating that the gentleman was much improved, and hopes are now entertained for his recovery.

EVENING HERALD.

THE DULUTH EVENING HERALD is issued from its office in the Bunnell Block every afternoon. First edition at 4 o'clock. Last edition at 5 o'clock.

THE EVENING HERALD will be delivered to any part of the city or mailed to any address for fifty cents per month.

The best advertising medium in Northern Minnesota. Special attention given to securing readers to those who use its columns.

MILLE BUNNELL,
Manager.

Blair's educational bill has already been favorably and unanimously reported by the senate committee.

The Tribune news editor styles Hon. H. Kelly "Pig Iron Kelly," and says he is sick of pneumonia in New York. The Tribune is badly mixed in its Kelly's.

The St. Paul Globe correspondent at Duluth struck a foot of snow Sunday afternoon and saw more a coming. This was an exageration of about six inches.

Sir T. E. Grove, member of parliament for the Wilton division of Wiltshire has become a Gladstonian. Should there be a new election for members of parliament this spring Gladstone would prevail by a large majority.

There is but one objection to G. G. Hartley as president of the Young Men's Republican club. There is mighty good legislative or congressional timber in him that may become available in the next campaign.

The New York World interprets the president's message to mean a tariff for revenue, a tariff for protection but no tariff for a surplus. This was probably what the president meant when he said it was not best to take the extreme view of his message when working for success in a protective district.

Mr. Sherman in the senate yesterday moved to refer the president's message to the committee on finance, and gave notice that after the holidays he would discuss the subject. This will open the next presidential campaign, and in congress the record will be made up that will win victory or defeat for the Republican party.

Ex-Congressman Strait says the anti protection sentiment is growing in Minnesota. Who is ex-Congressman Strait, anyhow?—Duluth Tribune.

This is a singular question for the oldest newspaper in Duluth to ask. They will be asking next who ex-Senator Ramsay is, and doubtless never heard of Bill King or Joe Wheelock. There is proof in the column that they don't know who Pig Iron Kelly is.

Mr. Pugh in the senate yesterday offered a resolution in relation to the tariff, finances [illegible] in the main is in harmony with the Cleveland view. He declared as a [illegible] compromise, he would repeal the internal tax on tobacco for the sole reason that tobacco was an agricultural product, and let the tax on whiskey stand for future consideration. He declared that he would vote to reduce the duty on any article manufactured in the United States that would cripple any home industry, or impair the ability of home competition.

Judge Kelly of St. Paul who recently decided that contracts for advertising in Sunday papers were illegal and that the sums claimed for publishing the same could not be collected by law has now decided that the Globe was now properly designated as the official city paper, and the assessments for public works for two years past are illegal. The advertising must all be done over. The effect of this decision is to annul all assessments for 1886 and 1887 and by law the board of public works must go on and make all assessments over.

In the house of representatives yesterday Mr. White, of New York, offered a resolution requesting the secretary of the interior to communicate to the house a statement in detail of the plan of legislation referred to in his recent report to the president, and thought by him to be necessary for the disposal of the public timber lands, so as to secure at the same time the preservation of the natural forest lands at the head waters of navigable rivers, and put within reach of settlers, a legal means of providing themselves with timber for building their homes, fuel and other domestic purpose. This action is timely and if its spirit is carried out the annoyance growing out of prosecution for so-called timber depredations will be done away with.

In a private note of congratulation to the editor of the EVENING HERALD AND JOURNAL on account of the recent consolidation, Col. Robt. T. Van Horn, of the [illegible]: "The stock of [illegible] when the com- [illegible]77, ten years ago, [illegible] property, but it [illegible]h now as it was [illegible] city and what a [illegible] come a fixed fact [illegible] three years of hard [illegible] even sacrifice, [illegible] a paper a fixture [illegible] Duluth." It is [illegible] one, of the Des [illegible] been given an [illegible] Times and they [illegible] the Register for $490,000. It is only a few years since the Register was struggling for existence. Since the consolidation of the HERALD AND JOURNAL business has wonderfully increased in every department and the paper is already a fixed fact in a city which is likewise a fixed fact.

THE YOUNG REPUBLICANS.

M. O. Hall, a member of the Young Men's State Republican club, in the News this morning presents some excellent points in reply to the Tribune's attack upon the Young Men's Republican club of this city. Mr. Hall says the fact that the Republican majority in this state has been cut down from 40,000 to 2,600 would indicate that there is need of Republican organization. He thinks if it is true that but nine met in secret conclave to perfect this organization, [illegible] one hundred who have [illegible] several hundred more who are sure to follow them, will succeed in holding down the undue aspirations of the immortal nine. The state club feels that if there had been an organization of the young Republicans in every city and town in New York—just such an organization as they are trying to secure in every town and city in this state, that New York would not have been lost to the Republican party and Blaine would now be president of the United States. Of the 225,000 voters in this state, Mr. Hall estimates that at least 15 per cent have attained their majority since the last presidential election, making 33,750—enough to hold the balance of power—and surely any scheme of organization that will tend to throw this vote in the right direction ought not to be discouraged. Statistics show that the aggregate number of men in the United States who are twenty one, twenty two, twenty three, twenty four or twenty five, exceeds the whole number of those who are over fifty and the party which secures the first vote of those men has a tremendous advantage. In New York in 1880 the total vote was 94,724 greater than in 1876. The Republican vote increased in these years 56,337 and the Democratic only 12,037, and the result was a change in the Democratic plurality from 32,742 in 1876 to a Republican plurality of 21,033 in 1880. Between 1880 and 1884 the Republicans gained but 6,457 and the Democrats 35,537, changing the Republican plurality of 21,033 to a Democratic plurality of 1,047. Organization and work on the part of the young Republicans would certainly have saved the state to the Republicans. The arguments of Mr. Hall are certainly forcible. It is the young men who need looking after. They are often susceptible; their principles are not established; they have no past record to rise up and condemn them, and feel perfectly free to choose in this their first presidential campaign which party they will serve. It is wise, therefore, to encourage the young Republicans in their disposition to organize, and since so much depends upon them, it is well to give them liberal representation among the office holders. It was largely the young men, many of whom knew Doc Ames in boyhood, who knew his generous disposition and his many noble qualities, that came so near, through their work and enthusiasm, turning the scale in his favor, in the last election.

'Tis An Ill Wind

That brings with it gusts of rain from the northeast. When the wind blows from that quarter on a wet day, the rheumatic are apt to suffer, even if seated by their "rain comfortable ingle" in a cosy arm chair. A few wineglassfulls of Hostetter's Stomach Bitters—most genial and comforting of specifics—will afford them unspeakable relief. There is ample proof on record of its efficacy in this disease—more particularly if used for its relief at the outset. Chills and fever, dyspepsia, constipation, liver complaint, and a lack of tone in the kidneys and bladder should also be treated with this useful family medicine of botanic origin. Appetite improves, refreshing slumber once more visits the weary eyelids of the nervous, and the circulation is enriched and accelerated in consequence of its invigorating and regulating action. Use it as a protector after getting wet.

THE PROHIBITIONIST.

A Very Clever take off on English Ignorance of American Affairs and the Harmless Prohibitionists.

The Flandreau Herald has discovered the following in a London paper: Between the numerous red men and the barbarous prohibitionists, the reservation of Dakota, west of the United States, in North America, is likely to be depopulated. The prohibitionists, a large tribe of aborigines have commenced a war of extermination. The mode of warfare of this tribe is to capture the enemy and treat him in a most horrible manner. The prohibitionists are a peculiarly constructed people by nature, as they never get thirsty. The postmaster general has ordered three men-of-war to move up the Jim river to the coast of Dakota, where the entire reservation can be bombarded.

A Pointer for Duluth.

Marquette Mining Journal: As the city is on the eve of making a contract for lighting the city by electricity, it behooves those who have the matter in charge to give us none but the best light obtainable. An unsatisfactory electric light is not much better than gas for street lighting. The object is light, and good light. With electric light as with all other things, the best is the cheapest. If a good light had been the main consideration when this subject was first brought before the city council, Marquette would be now well lighted. It need not be expected that any electric light company will do work at a loss, or even without reasonable profit, and do it well. That electric light is desirable is evident to every one who spends a night in Houghton or Hancock. They have a first class light—the Thomson-Houston—which for steadiness and brilliancy cannot be excelled. A representative of the Mining Journal looked over the plant of the company at Hancock the other evening, and can pronounce it one of the most perfect outfits he ever saw. It is just an outfit he hopes to see in Marquette ere long.

LINCOLN'S WARNING.

Labor advised to Beware of the Encroachments of Capital.

Abraham Lincoln: Monarchy is sometimes hinted at as a possible refuge from the power of the people. In my present position I would be scarcely justified were I to omit exercising a warning voice against retrieving despotism. There is one point to which I ask attention: It is the effort to place capital on an equal footing with, if not above labor, in the structure of the government. I bid the laboring people beware of surrendering a power which they already possess, and which when surrendered, will surely close the door of advancement to such as they, and fix new disabilities and burdens upon them till all of liberty shall be lost.

A Ground-hog Case.

Daily News: Prof. Lester: Why do I wear a dress suit all the time? Because I don't have any time to change. I've kept so busy with receptions and dancing lessons that I am compelled to be in full dress constantly. No I don't get tired of dancing. I am just as fond of it as I ever was. I am never more happy than when I am dancing with a graceful partner.

A Lovely Young Man.

Bobby (to young Mr. Fatboy)—I heard my sister Clara say something lovely to ma about you, Mr. Fatboy.

Young Mr. Fatboy (anxiously)—No, did you, Bobby? What was it?

Bobby—She said you would be lovely to sit on the family bible and press autumn leaves.

The administration tariff bill contemplates a reduction in the revenues of $62,000,000. Of this $50,000,000 is to come from a reduction of duties on manufactured goods, and $12,000,000 from additions to the free list, salt, wool and lumber being included. There will be many changes from ad valorem to specific duties.

VARIOUS CAUSES COMBINE TO BRING ABOUT A STRONG DULL FEELING AND AN UPWARD TENDENCY.

The cold wave sweeping down over the winter wheat country, a better report from the seaboard, some foreign demand and a a belief in the early dropping off of the northwestern wheat movement had a good effect on wheat prices today. The opening was weak but values soon increased under a good demand. Prices advanced ¾c here from the lowest point of the morning, but closed easier. Other markets were proportionately higher. New York was very strong, advancing a cent.

The day's movement was fair. Receipts at all points exceed consumption and clearances about 124,000 bushels. Duluth, Minneapolis and Chicago together received 464,000 bushels.

Cash wheat sold at 74⅞ to 74⅞ for 1 hard and at the noon close was held at 75. No. 1 northern sold at 70½ to 71, closing at that. No. 2 northern sold early at 68½. December 1 hard from 74½ up to 74⅞ 5, closing at noon at 75. January sold from 75 to 75⅛ with the close at 75⅛. May was more extensively dealt in, it opened at 81⅞ dropped ⅛, advanced to 82⅝, a cent from the lowest point, sold off to 82⅜, recovered to ⅛, eased off and closed at 82⅝ sellers, 82⅜ bid.

Almost the only trading on the afternoon board was in May at 82⅝, ¼ above the morning close. Market closed at 82⅝ strong.

Receipts today were 178,345 bushels wheat, 5,792 bus corn, and 1,959 oats. No shipments. Cars on track this morning 186, 89 N. P. and 97 Manitoba. Receipts same day last year 93,910 bushels. Receipts at Minneapolis today are only 162,-960 bushels.

THE DAY IN THE CITY.

Stevens' rink will be enlarged for holiday sports.

Johnson & Oie, of 1531 West Michigan street, have dissolved partnership.

Major Hoover reports his son Will much improved in health and likely soon to be himself again.

H. M. Stocking, of Eau Claire, is cutting 8,000,000 feet of logs on the Brule river to be sold in Duluth.

The News has discovered an auburn haired Indian, for particulars see account of the auburn haired individual found drowned yesterday.

The Homestead and Union Building & Loan associations held their regular meetings last night and loaned $5,500 to intending house building.

The entertainment given by the Bethel last night, the full program of which was published yesterday, was a very pleasant affair and was attended by many.

The last harbor navigation of the season was done by a tug yesterday afternoon in towing a sail boat, belonging to the boat club that had broken from its moorings in Sunday's storm.

Dunn & Thompson are building a heavy bridge connecting their two great ware houses on Lake avenue. They intend to begin filling the houses with corn from the southwest in a short time.

A team of horses, backing into Jake Liedel's feed store this morning, shied at something in the road and fell into the sewer ditch, nine feet deep. Though an hour was consumed in extricating them, they were uninjured.

A man with a large, black fur coat on, going up Lake avenue today was attacked by a dog that evidently took him for some animal. The man's cries, by collecting a crowd, drove the animal away with no worse damage than a torn coat.

At the municipal court today Andy Murray, ordinary drunk, got seven days and J. G. Clark for the same offence paid $10 to Judge Martin. Nellie Walker, keeper of a house of illfame, and Rockey Rickley, inmate, were committed to jail, the former for thirty-five and the latter for twenty days.

A Christmas present was received this morning for Mayor Sutphin in the shape of a leather cane, such as are manufactured in the Stillwater prison. Accompanying the gift was a slip of paper bearing the words, "To Mayor Sutphin, H. Brown." Brown it will be rembered, is the Park Point pirate sent down two years ago for a term of three years. An effort to secure a pardon for him some time ago owing to his very bad health, was unsuccessful.

THE REPUBLICAN CLUB.

GIL HARTLEY WILL HEREAFTER PRESIDE AT ITS MEETINGS.

At the meeting of the young Republican club held last night it was announced by M. A. Hays, chairman of the membership committee, that 120 Republicans had signed the rolls of the club. It was also decided that all who had signed the roll to date should be considered charter members, instead of the first fifty only, as had been the rule.

Officers were then elected as follows: G. G. Hartley, president; M. O. Hall and S. E Cheeseman, first and second vice-presidents; W. A. Cant, secretary; Geo. T. Hughes, treasurer; Jas. T. Hale, S. F. Wadhams, C. C. Tear, M. A. Hays and C. W. Ericson, executive committee. After a notification of his election, President Hartley declined the office but his declination was not accepted. Before adjournment it was decided to hold regular monthly meetings in Ingalls hall.

OF GENERAL INTEREST.

The schools close Friday for the usual holiday vacation.

The thermometer registers nine degrees above at 10 this morning.

Alex. McKinnon leaves shortly for a month's stay with relatives in Iowa.

The Chautauqua circle meets Friday evening for the first session of study.

The Michigan house improvements will be finished the 22d of February, at which date the alderman will give a grand ball.

The K. of L. dance takes place Thursday, the 22d; a typographical error making it read "the 29th", in last evening's HERALD.

The West End column of a certain morning publication contains nothing, this morning, but what had been published in the HERALD from four days to a month before.

The Second Presbyterian church will have two Christmas trees for the enjoyment of the young people, Saturday evening. Every member of the Sunday school will receive a substantial token of remembrance.

Supt. Pettibone—Our books are not closed and moreover we have no correct idea of the amount of business we have done this year. Where the author of the article in the News(?) this morning received his authority to state that we have done $700,000 worth of business this year, is more than I know. If he had taken fifteen per cent of that amount, the article would have had some sense, but as it is stupendiously stupid and nonsensical.

PROJECTED IMPROVEMENTS.

Though the progress that West Duluth has made commercially during the past year has been in many respects remarkable, yet the ensuing year promises improvements that will be, from a financial standpoint, far in advance of any previous year in her history. Large sums of money have been expended during 1887 in building purposes, but considering the relative value of each improvement, those of the season of 1888 will be of fully 50 per cent greater value and importance; and while their number will be less, yet they will use more capital, furnish more laborers with employment and do more to give an impetus to West Duluth's future as a manufacturing centre, than any one year in past. Since Superior street, west of Thirteenth avenue, has been completed, it forms by far the most desirable business locality and a large number of removals will probably take place in 1888 from Michigan to Superior street. The most important building to be erected next season in West Duluth is one on the Nelson property at the corner of West Superior and Piedmont avenue. The dimensions will be 50x100 feet, three stories high, and the entire building will be used by a well known Eastern capitalist as the largest dry goods store in the Northwest outside of the Twin Cities. On Superior street, near Eighteenth avenue west, will be erected a three story brick building by N. J. Miller, at a cost of $12,500. Between Twentieth and Twenty first avenues on the same street two store buildings will be erected, dimensions 70x50, two stories high, at a cost of $10,000, and on Twenty-first avenue a three story double store will be built at $8,000 cost. A new two story frame building is now being put up on Twenty-fifth avenue, and will be occupied as a store. Its cost will probably be about $2,500. That these buildings will positively be erected is nearly certain and many more projected which will probably materalize. Besides these few are the new coal docks near the blast furnace property, the building of a new broom factory with three times the present capacity. Of the manufactories the American Improvement company, the National Iron works enlargement, a pottery manufactory and the ship yard are among those that are certainties. The full value of business improvements to be made next year will reach over $1,-000,000 in West Duluth, and a capital will be employed of five times that figure. Whether any new elevators will be built next year it is impossible now to state, but that West Duluth will see a building boom unprecedented in her existence is certain.

This afternoon the case of Eiof Berg vs. J. F Chase is being tried. Frank A. Ross appearing for plaintiff, and D. E. Roberts for defendant.

A MIXED UP AFFAIR.

Some time since one Collins, of oldtown, determined to raffle off his horse, sold tickets for same, each ticket entitling the holder to one flop in a game of dice, one man to throw for all, the person holding the lucky number to get the horse. S. Pyatt purchased one ticket, but being sick at the time of the raffle, sent a proxy and won the horse. Before Pyatt had been notified that he had won the horse Dick Collins, a son of the raffler, went to Pyatt and purchased his chance and therefore claimed the horse. Pyatt has begun a replevin suit against Collins, Grace being attorney for plaintiff and Champ Green for defendant. Sheriff Kennedy now has charge of the unfortunate animal. Considerable interest is manifested in the issue of this trial.

Cap. Lutes Talks.

That rather unintelligible article in the HERALD last evening purporting to give an account of the row over the big turkey certainly was a little off color and not absolutely correct, as to the weight of the turkey or the party accused of stealing it. It was evidently gotten up by some of the party who got in their work on those two rounds of drinks. In the first place that turkey weighs twenty-five and three-quarter pounds on the Marine Meat Market scales or any one else's scales. In the second place Mr. Witt was not accused of stealing the turkey, but only of retaining stolen property in his possession. That turkey can now be seen hanging triumphantly in the window of Lute's Marine Meat Market, 214 Lake avenue south. Nobody hurt.

Electric Belt and Suspensory — For all Personal Weaknesses of men

We are now offering our justly famous Dr. Sanden Electro Magnetic Belt, patented Oct. 30, 1885, and which is unquestionably the crowning triumph in electric science. It embodies such vast and radical improvements over all other belts that its advantages over them can only be properly understood by comparing our present electric light to the old tallow candle. In fact, this is THE Electric Belt of to-day for self-treatment, and furnishes a current of such bonafide nature, that it is instantly felt by the wearer upon application, or we will forfeit $5,000. That these statements are facts is conceded by the U. S. Government in their recent patents to us, and arguments are therefore unnecessary. This belt will infuse the current into the spinal column, which is the grand nerve center of the body, and also gives direct currents to the Stomach, Liver, Sexual Organs, or any weakened or diseased part, thus permeating every part of the body, and will positively cure Nervous Debility, Pains in the Back, Hips or Loins, Lumbago, Rheumatism, Kidney and Bladder Diseases, Neuralgia, Dyspepsia, all Weakness of the Sexual Organs, Piles, General Ill Health, etc. Electric Suspensory for men free with every belt.

We take it for granted that every buyer of an Electric Belt wants the BEST MADE, and it is, therefore, to the interest of sufferers to call and see this famous belt before buying, as it costs no more than the inferior old styles, produces stronger and more lasting currents, and is indestructible. We warrant it to last for years, and whole family can wear same belt.

TO MEN suffering personal weakness we especially recommend it, and will be glad to give the highest private references as to what it has done and is doing. Get our pamphlet, illustrated, containing full information and hundreds of testimonials from prominent people throughout the U.S. by mail, sealed, free of postage. Address
